TIPPERS

COBALT HB: TAKE IT EASY...

The new HB tippers combine innovative power with reliable top quality. No wonder these major leaguers will prove ideal for the most challenging jobs!

Our ultimately durable Cobalt HB has been provided with a galvanised steel floor plate on a wooden floorplate. As a result, the load will easily slide off the trailer. In addition, the frame has been built up of two completely welded parts, which doubles the strength of the whole structure!

BRING IT ON.

STANDARDS, OPTIONS, AND ACCESSORIES

Standard: provided with durable 3-step cylinder.

Standard: a lowered chassis with tyres 195/50 R13.

Option: cargo net, fine mesh.

Standard: with 4 durable corner posts and a hinged front wall.
